

Date:

To whom it may concern,

Hope TEN40 is a not-for-profit organisation dedicated to supporting vulnerable individuals and communities across the 10/40 Window. Our mission is to bring practical assistance and lasting impact to regions where resources are limited and needs are significant.

We support projects that deliver meaningful outcomes, empower local communities, and promote sustainable change. Our focus is on initiatives that address real needs, demonstrate clear impact, and are delivered with integrity and accountability.

Through our grant program, we partner with individuals and organisations working directly within communities. We believe that targeted support, when applied thoughtfully, can create lasting transformation and opportunity.

We invite applications from those whose projects align with our values and who are committed to delivering measurable and meaningful outcomes.

Thank you for your interest in partnering with Hope TEN40.

Yours sincerely,

HOPE TEN40
