

Bellarine Multimedia Visiting Photo Scanning Service

Bringing Your Past Into the Digital Age - Direct to Your Facility!

Keep Your Precious Moments Safe Forever

Do you have a box of treasured photographs, slides, or negatives stored away, slowly fading with time? Are you worried about losing those cherished memories to age, damage, or misplacement? Now, there's an easy way to ensure your life's moments are preserved and protected for generations to come—right from the comfort of your own community!

Introducing Our Mobile Photo Scanning Day

Serving Aged Care Facilities & Lifestyle Villages in Geelong & the Surf Coast

We are excited to announce a special event coming to your facility—a dedicated Photo Scanning Day! Our professional team will visit your aged care residence or lifestyle village, equipped with state-of-the-art scanning equipment, ready to digitise your most valued photographs, slides, and negatives.

Why Digitise?

- **Preservation:** Paper photos deteriorate over time. By scanning and saving them digitally, you ensure they are safe from fading, tearing, or disasters like fire and flood.
- **Sharing:** Once digitised, relive and share your memories easily with family and friends, near or far, at just the click of a button.
- **Organisation:** Digital photos are easy to sort, label, and store—no more rummaging through boxes or albums!
- **Peace of Mind:** Know that your legacy is safe for your children and grandchildren.

How It Works

- **Mark Your Calendar:** Look out for announcements about the upcoming Photo Scanning Day at your facility! We'll coordinate with your management team to confirm the date.
- **Gather Your Memories:** Bring along your loose photographs, slides, and negatives. There's no limit—bring as many as you like!
- **On-the-Spot Service:** Our friendly, respectful staff will carefully digitise your images on location, treating every item with the utmost care and confidentiality.
- **Receive Your Digital Copies:** Take home your treasured images on a USB drive, or via secure digital download. Originals are returned to you immediately after scanning.
- **No Tech Skills Required:** We make the process simple! If you wish, we can also help you view and share your images on phones, tablets, or computers.

Who Should Participate?

- Residents of aged care facilities and lifestyle villages
- Family members wishing to preserve a loved one's history
- Anyone with precious photo collections at risk of loss or damage

Why Choose Our Service?

- Convenience: We come to you—no need to organise transport or worry about leaving your facility.
- Expertise: Years of experience handling delicate, irreplaceable photographs.
- Security: Your privacy and the safety of your memories are our top priority.
- Community Focused: Proudly serving the Geelong and Surf Coast region—supporting local residents and families.

Frequently Asked Questions

- Q: What types of photos can I bring?
- A: We scan loose photographs, slides, and film negatives. If you have albums or framed photos, please contact us in advance to discuss options.
- Q: How long does it take?
- A: Most scanning is completed on the same day. Large collections may require extra time, but we will keep you informed every step of the way.
- Q: Is my privacy protected?
- A: Absolutely. All images are handled with strict confidentiality and are never shared without your permission.
- Q: What should I bring?
- A: Please bring your photos, slides, or negatives loose (not stuck to sticky pages or glued), if possible. If you have concerns, let us know and we'll help!
- Q: Can you restore damaged photos?
- A: Basic restoration services (colour correction, minor repairs) are available—ask our staff for details.

Book Your Spot!

- Check with your facility manager for the upcoming Photo Scanning Day date.
- Spaces may be limited—register your interest early to guarantee your place!
- Family are welcome to assist or attend with you on the day.
